

Caution:

- Grind without coffee bean inside or anticlockwise spin will damage the burrs.
- Do not adjust the burr for too fine grind, since it might cause burrs damaging.
- Coffee bean oil will attach on burrs in a period of time. Soak the burrs in neutral detergent, then rinse it thoroughly with water (do not use bleach).
- Do not use or put any oily stuff during the cleaning process.
- Burrs might be worn down over a long period of time. If less and less grind coffee comes out from the grinder, it's about time to replace a new one.
- Tap on the hopper during the grinding from time to time to avoid broken coffee beans stuck and block the inner opening.
- The grinder is for coffee beans only, do not put your fingers or other object into the grinder.
- In order to protect your wooden table from scratch and have more friction to grab on table during grinding, please use the silicon pad.
- Do not use on fire or direct heat.
- Use cautions since glass is breakable and keep away from children.
- Do not use the item when crack or serious scratch were found on glass surface, it might break during usage.
- Do not use metal spoon tapping or scratching the glass.
- Use only soft sponge and neutral detergent to clean the glass.

1. Unscrew fixing cap, remove handle and nut stopper.

2. Follow the illustration below to adjust the types of grind.

3. Put the nut stopper back, replace the handle then screw the cap on top.

Merit

- Totally washable: Burrs are made of ceramic and metal parts are made of stainless steel. All the parts can be disassembled and washed (Please assemble after dry).

How to disassemble this mechanism:

1. Unscrew the fixing cap, then remove handle and nut stopper.
2. Remove (anticlockwise) the adjustment nut and washer.
3. Pull out the burr from bottom.

Note:

Remove this part from glass jar before disassembly. DO NOT miss any part.

- Easy to grind: Skerton coffee mill comes with silicon pad for glass jar. It provides more friction to grab on the table.
- Rust free: Burrs are made of ceramic, no metal smell, washable, and rust free. The burrs last longer than metal one.
- Easy to adjust the type of grind.
- With attached lid, lower glass part can become a coffee storage jar.
